Brand Name: Lewa's Growth Oil

Tagline: Nourish, Grow, Glow

### **About the Brand**

Introducing Lewa's Growth Oil, born from a deep love for healthy, thriving hair. I've always believed every strand deserves gentle, nourishing care, so I crafted this blend with rich, natural oils that stimulate growth, lock in moisture, and strengthen from root to tip. What sets Lewa's Growth Oil apart is its lightweight formula that delivers intense hydration without heaviness. Not only does it build growth and seal in moisture, it also targets dandruff, clearing away flakes and impurities so your scalp stays fresh and clean. It's more than a product, it's a passion, created to help every crown flourish naturally.

All natural blend product that nourishes the scalp, promotes healthy hair growth, locks in moisture, and helps clear dandruff for soft, strong, and vibrant strands.

### **About Founder**

Glory Omolewa Adepoju is a graduate of Science Laboratory Technology and the founder of Lewa's Growth Oil, a natural hair-care brand she developed after crafting and testing a formula that transformed her own hair. Driven by a love for healthy, thriving hair, she combines scientific knowledge with natural ingredients to help others achieve stronger, dandruff-free strands. Beyond her brand, Glory is a public-speaking enthusiast eager to grow in that field. She also enjoys modeling and influencing, often creating personal photos and videos to share her style and creativity across platforms.

### **Brand Story**

LEWA'S GROWTH Oil was born from a simple idea: every woman deserves a crown that flourishes. What started as a quiet plan for the year quickly grew into a heartfelt mission to help others fall in love with their hair again.

## **Inspired by Family**

The recipe isn't from a factory, it's a heritage. I learnt the process of blending these rich, nourishing oils from my mum, watching how natural ingredients could revive tired strands. I began making small batches for myself and used it faithfully, and soon my own hair told the story: stronger roots, fuller volume, and a healthy, dandruff free scalp.

## **From Personal Care to Shared Passion**

Seeing those results, I couldn't keep it to myself. Friends noticed the difference, and I realized many women around me were struggling, sometimes simply because hair care felt like one more chore. I wanted to change that by offering a product that makes consistent care easy and rewarding.

## **The Journey Continues**

This is more than a business, it's a community of women and men reclaiming confidence through intentional hair care. Each bottle is a promise of quality, tradition, and the belief that your hair deserves to thrive.

## **What We Believe**

At LEWA'S GROWTH Oil, we believe that beautiful hair begins with a healthy scalp and a little daily love. Our goal is to help every woman nurture her natural texture, remove dandruff and buildup, and enjoy hair that is strong, soft, and radiant.

## **Vision**

Maintaining a healthy hair, a dandruff free scalp and increasing the growth on every side of the hair, bringing out the beauty

## **Product: Key Ingredients and Their Benefits**

### **ROSEMARY LEAF**

Rosemary leaf is derived from the salvia Rosmarinus plants which when extracted gives the oil. Aside hair, Rosemary is useful and applied in so many areas in the light of skincare, cooking and for medicinal purposes. But since our concern is the hair, it has a positive effect to the hair in which it fortifies the hair strands i.e it's reinforces your hair from the root to the tip, reducing breakage. It also known for boosting scalp circulation to deliver nutrients and oxygen to the hair follicles which stimulates the growth of your hair. Its anti inflammatory and anti bacterial action helps calm irritation, fight dandruff and wards off infection.

### **ONION OIL**

Onion is also an effective hair care product, which when extracted gives its oil. It's an ingredient rich in sulfur and potassium. With presence of multiple nutrients, onion oil helps in maintaining the PH level of the scalp. The antioxidants in onion oil protect the hair from the damaging effects of free radicals. Those free radicals support quick ageing, resulting in hair thinning and fall. Thus, it prevents premature hair greying. It as well pampers the texture of your hair, nourishing and giving it strength.

### **AVOCADO OIL**

The natural oils and vitamins in avocado make it a great natural ingredient due to the moisturizing qualities and nourishing qualities of oils and vitamins. Oftentimes, we hear that avocados have "good" fats for eating, but they also have "good" fats for hair. Whether you are applying a hair mask, or using hair oils, one ingredient you can start to keep an eye out for is avocado. Avocado is especially great for people with dry or damaged hair. Avocados are rich in protein as well as Vitamin B, which is an essential vitamin for optimal hair health. These, along with those good fats and Vitamin E, make the hair strong, healthy, soft and shiny. Avocado acts as a natural sunscreen for hair to help protect hair in the sun

### **CLOVE OIL**

Clove oil is one of the best natural moisturizers for hair, deeply hydrating dry strands and enhancing shine. Rich in Vitamin K. This nourishing oil conditions rough, brittle curls, leaving them soft, smooth, and manageable. It helps combat frizz, split ends, and

breakage while giving your hair a lustrous, healthy appearance. Clove oil also detoxifies the scalp by removing grease, dirt, and buildup, creating an ideal environment for hair regeneration. Its refreshing aroma is an added bonus, while its dandruff fighting properties help reduce flaking and irritation. Applied to the scalp and hair shaft, clove oil works as a natural conditioner locking in moisture, strengthening strands, and adding volume to dull, thinning hair.

### **ALOE VERA**

Aloe vera has many active ingredients and minerals that can help strengthen your hair. It has fatty acids and amino acids and is rich in vitamins A, B12, C, and E. These play a part in healthy hair follicles. Aloe vera calms an itchy scalp. Aloe vera cleanses the hair shaft efficiently, stripping off extra oil and residue from other hair products. But aloe vera doesn't hurt your hair strands while it cleans. Unlike other chemicals in hair products, aloe vera is gentle and preserves the integrity of your hair. Using aloe vera is a great way to get hair that looks healthier, shinier, and softer.

### **MENTHOL**

Menthol is scientifically known as a vasodilator, meaning it may promote blood circulation to hair follicles and, in turn, support improved hair nutrition. Menthol crystals are derived from mint plants like peppermint and are commonly used in hair care products due to their beneficial properties for the scalp and hair. Menthol provides a cooling and soothing sensation, which can help alleviate an itchy or irritated scalp. It can help regulate sebum production, making it beneficial for oily scalps, and its antiseptic properties can contribute to a cleaner scalp environment. Menthol is believed to increase blood circulation in the scalp, which can deliver essential nutrients to hair follicles and potentially stimulate hair growth and thickness. Menthol can be found in shampoos, conditioners, and hair tonics to clean strands, promote natural luster, and provide a refreshing feel.

### **Product Benefits**

What does it actually do to your hair ? (Natural/Relaxed Hair)

1. It helps in the removal of dandruff & dirt, making the scalp clear and clean
2. It enhances the growth of your hair
3. Soothes dryness and itchiness of your hair
4. Reduces hair loss and prevents breakage
5. Softens the overall texture and keeps your hair healthy

## **Product Application**

Apply daily directly to the scalp for best results. The bottle has a dropper for easy, mess-free use. Simply part the hair, place a few drops on the scalp, and gently massage in.

## **Product Storage**

Keep in a cool, dry place

## **Testimonial**

### **Covenant**

Lewa's Growth Oil reduced my hair breakage and kept my scalp clean. Clean scalp all the way! Please don't stop the production—keep it coming!

### **Gracia**

It's very efficient. My edges have been growing since I started using it, and my hair length has also increased.

### **Wura**

Yes o, small small, my front hair is coming out.

### **Dolapo**

Lewa's Growth Oil is 100 — it works so fast!

I can now comb my hair without breakage or dandruff. Thank you, Lewa's Growth Oil!

I even applied it on my eyebrows and you won't believe it—I saw changes!

### **Tosin**

It works really well. I'm definitely getting another one when this finishes.

### **Grace**

I've used expensive products before. In fact, I cut my hair every year. I just decided to try yours—and it worked!

Please don't reduce your quality.

### **Funmi**

It really works. My front hair is growing.

**Oluwatosin**

Is your oil still available? I want to get another one. My boyfriend took the one I bought earlier because he saw how effective it was. So I want to get two—for both of us.

**Fathia**

Guess whose hair oil just finished 😞 The two I bought before traveling just finished, and I need another one. I had lost almost half of my hair before going home, but now it's back!

**Semilore**

My hair got thicker and longer. You need to hear how my mum was hyping your oil! She said she used to have serious breakage and your oil stopped it. I'm not even lying—this oil works.

**Stephen**

It smells really good. I like the oil.

**Tolulope**

The oil is really good. My hair feels nice and looks healthier. Definitely love it.

**Samuel**

I just started using the oil yesterday. I've been wondering what makes your hair smell so good—turns out it's the oil! I love the feel it gives my hair.

**Bolu**

Your oil really works—my hair is now softer, easier to comb, and getting longer. This oil is underrated! Please advertise more so people can know you're selling original growth oil.

**Esther**

I'm glad the oil works effectively. The itching has stopped and my hair is getting fuller.
